WOMEN ANTI-HYLAN IN FIRST CITY VOTE

Fusion Lacks Money to Put Up Its Best Fight to Rout Out Hearst.

MURPHY IGNORED BY ALL

accepted as oracular and final. Yet aside from the Tammany and Hearst politicians who have agreed to maintain a state of armed neutrality in the present campaign the rarest bird to find is the woman or man who admits that he is going to vote for Hylan and yet appears to be confident that William Randolph Hearst's Mayor is going to be reelected.

A couple of weeks ago this opinion was pretty general among professional points of office renewal demand for the nomination of Edward M. Shepard.

too well that that is entirely contingent on the ambitions and impulses of Mr. Hearst himself.

For these reasons and others that are entirely obvious the fusion campaign has practically ignored Murphy and his organization's methods of "chloroforming the conscience of the city," as one of the fusion spellbinders described the process. It is quite probable that the ignoring of Murphy will be continued by the Fusion managers throughout the

mpaign and that such heavy verbal tillery as can be commanded will be intred directly on Mr. Hylan first and

fluences.

Judge Jeromo is a New Yorker and, whatever might be urged against him by his political critics, is intensely proof the fact. In common with other New Yorkers responding to the same sentiments he is deeply resentful of the influences which dictate the municipal policies of the greatest city in the world. He said in his opening address on Friday night that any New Yorker who will review the history of his city during the last four years will find every reason to vote against Mayor fixian and not one valid one for voting for him.

Like Low-Shepard Contest.

Leaders Pear Hearst.

Professional opinion in the Tammany and McCoocy organization coincides to the evtent that both Murphy and McCoocy "are more afraid of Hearst than they are of Hylan or the Republican organization." The district leaders are less concerned over this unmistakable fact than as to the prospective attempt of the Hearst forces to drive what little influence Murphy has with the Mayor out of City Hall after the election and encourage the critics of the Tammany hoss to depose him from power.

Tammany district leaders admit that the Hearst crowd holds the patronage ambitions of Tammany in the hollow of its hands and seem to have very good reason to fear the worst. Some of Murphy advisers, anticipating this condition of affairs, urged Murphy to refuse the support of the organization to the renomination of Hylan and to put forth former Gov. Al Smith, who, according to the overwhelming opinion of the organization, would not only make a hetter candidate but a vastly more efficient and less objectionable Mayor.

Murphy for reasons of expediency and self-defence, however, was compelled to assent to the Hearst demand that Mr. Hylan be renominated. Tammany leaders as a rule entertain no illusions regarding the professed friendship of the Mayor for Murphy. They know only too well that that is entirely contingent on the ambitions and knopules of Mr. Hearst himself.

Jerome Arouses Tuterest.

There is no question but that the advent of Judge Jerome into the campaign has a roused far greater interest among citizens opposed to the Hearst-Tammany combination than any other single factor entering the situation. Judge Jerome is understood to have made only one condition in accepting the fusion invitate of mind of the average New Yorker regarding the probable outcome of the Mayoralty contest invariably gets' this reply:
